healesville early childhood intervention program

therapy through play, supporting
children and their families

play based therapy, assessment and family support

the program

healesville early childhood intervention program provides:

- Assessment for children below school age, who are attending the program
- Developmental education, therapy and family support - individual and small groups
- Centre-based programs
- Home programs
- Support in preschools and childcare program
- Parent support
 - assisting with issues impacting on family well-being
 - links to other services

eligibility

Services are available for children from birth to school entry who have a delay in two or more areas of their development.

parent participation

Parents are actively involved in helping their child develop and in helping professionals understand their children. Parents are encouraged to participate in all aspects of the program to gain support, meet other parents and develop skills.
